

commercial vehicle finance

...that works for
your business

“ taking care of your finance in one call ”

independent commercial **finance specialists...**

Avelease have been providing independent commercial vehicle finance since 1992. We understand the importance of finding the right solution for your business and, with just one call, we can take care of your commercial finance needs...

solution
experts

specialists

Over the years we've increased our level of expertise to enable our small, independent team to provide your business with a personal service of tailored financial options – from the largest fleet operator to the new start business.

Our dedicated team understand the importance of keeping your business on the move and we pride ourselves on a fast, efficient service, with your productivity in mind.

When it comes to purchasing your new equipment, we know that flexibility is key. With our finance solutions you're in the driving seat, enabling you to source your own equipment and negotiate with the vendor direct.

We can offer your business:

- **One call solutions**
- **Dedicated, experienced team**
- **Fleet expansion**
- **New starts**
- **Hire purchase**
- **Finance lease**
- **Non-dealer supply**
- **Credit lines**
- **Low deposits**
- **Sale and leaseback**

getting you **started...**

When you're **starting up a new business** it's difficult to know which way to turn for financial help. Avelease have considerable experience working with start up businesses and will work with you to achieve your goals.

advice

Starting out in business is financially demanding and often daunting. You may have some cash of your own, but more often than not you will need some financial support.

This situation often leads new businesses to high street banks, who can be unwilling to help with a new start up venture without securing loans against property. This is hardly a good way to start a new business, and can leave you inflexible for future borrowing.

At Avelease, we don't do secured lending.

We have a proven track record in obtaining financial solutions for start up haulage operators, achieved by treating you as an individual.

Instead of credit scoring your application, we'll look at your background, your proposed start up structure, the type of haulage and the asset you wish to purchase.

This information will enable us to put together the ideal finance package to suit your needs and your business.

tailored

your business

moving you
forward...

Likewise, if you're **expanding** you'll need advice from someone who knows your business. Avelease can advise you on the best solutions for a growing business and work with you, helping you make the right financial decisions for your needs.

growth

bespoke

advice

Once your business is established and going well, we can open credit lines for you, to allow your business to grow further.

This can enable both expansion and equipment upgrades, which are often key to moving your business forward and obtaining important new contracts.

Equally, should the going get tough, we can work with you hand-in-hand to determine the best tailored financial solutions, helping you cope with the ever-changing demands of the haulage industry.

As a valued client of Avelease, we will always do our best to help with your given situation.

best solution

flexible finance, helping hand...

With these **competitive and changing times** our flexibility can often greatly improve your cash flow or help raise that much needed working capital. Either way Avelease will find a solution that works for your business.

experts

raise money by re-finance

Release equity tied up in your vehicles by way of re-finance.

We achieve this by taking a complete review of your vehicle fleet, enabling us to advise just how much money we can raise.

reduce your finance payments by re-structure

Lengthening the term on your existing agreements can often significantly reduce your ongoing finance payments.

We have been doing this for many years and we use this experience to review your finance commitments and save you money.
